

BURNETT POOLS 2007 ABOVE-GROUND POOL CLOSING AGREEMENT

To our valued customer—

Thank you for considering Burnett Pools to prepare your pool for winter this season. We recommend that you **bring a sample of your pool water to our retail store for testing prior to our Service Department closing your pool.** Our retail staff has been thoroughly trained to explain the addition of balancing and winterizing chemicals. This is also a good time for our staff to explain and review additional items listed below you may need to protect your pool investment. For these reasons, we have removed the cost for all winterizing chemicals from our pool closing agreement. Please call our Service Department who will be happy to answer any of your questions.

Alan S. Burnett, *President*

Above-ground-Basic Pool Closing				
Labor rate includes the following operations: winterizing pool equipment including filter, pump, heater, chemical feeder, and light; removal of ladders; and, installation of your winter pool cover.				\$175.00

PLEASE NOTE:

With this agreement, Burnett Pools is only providing a service. **It does not carry any warranty against freeze damage to pool, pool equipment, underground lines or water clarity.**

We require an **\$80.00 deposit. Those paying in full or with a credit card do not need to be present for their pool closing.** All others with a balance must be present to make payment in full upon completion. We will schedule your closing as close to your preferred date as our schedule permits. You will be called prior to your closing so you can make arrangements to be present.

Signature: _____ Date: _____

Please return completed agreement to Burnett Pools by mail or fax. Mail check to:

**2498 Elm Rd. Ext.
Cortland, OH 44410
Attn: Service Department**

Send credit card information to above address—or **fax to (330) 372-1723.**

Special Notes:

Above-ground pools with walk-around decks require the use of watertubes to secure the winter cover. Pools without walk-around decks we recommend the use of quick clips, (four per top rail work the best).

Pool owners with DE filters will need to chemically soak their filter elements prior to winter storage.

Summary:

1. Schedule week of closing
2. Discuss optional winterizing items
3. Balance pool water and add winterizing chemicals prior to closing
4. Vacuum pool and clean water line
- 5. Lower water to 3" to 4" below the bottom of skimmer faceplate. There will be a \$75 charge for Burnett Pools to lower your water.**

PLEASE CLOSE MY POOL DURING THE WEEK OF: _____

Special Instructions or Requests:

Please add any notes that you want the service crews to know, e.g. pool size, where to store solar cover, where to dispose of pool sand, etc.:
