MASONAIR™ LS9000 LOW AIR LOSS SUPPORT SURFACE WITH PULSATE FEATURE

The Masonair™ LS9000 system offers an extraordinary therapeutic air mattress for the treatment and prevention of pressure sores. The 10" mattress is constructed of (20) 8" high air cells with a 2" foam base, encapsulated by a removable zippered quilted top cover. The nylon waterproof cover is non shear, low friction, anti-microbial and anti-bacterial. For quick setup, the powerful Powerloft Pro 900 blower unit's auto firm feature inflates the mattress in less than 1 minute. The 20 replaceable air bladders in the mattress consists of 160 laser air holes. The powerful high flow blower combined with the laser air holes produces an unequaled cool, dry and comfortable pressure reducing support surface. This top of the line system offers 6 comfort settings, accommodating each patient's individual needs. The quick locking connectors also operate as a CPR function, deflating the mattress in under 15 seconds. The exclusive pulsate mode reduces air flow every 30 seconds to 50% of the comfort setting. This feature will intermittently reduce the firmness of the mattress which increases blood flow and reduces interface pressure.

FEATURES

- High air flow blower.
- Auto firm mode with LED, inflates mattress in less than 1 minute.
- Soft/firm key with 6 LED lights to obtain custom patient comfort pressure levels.
- Pulsate mode.
- Pump lock out mode.
- Audible & visible alarms indicating a power outage and low pressure.
- Alarm silence key with LED, to mute audio indication.
- Overall dimensions 36" x 80" x 10", Weight 15.4 lbs.
- Bladder cell depth: (20) 8" nylon air bladders, 2" foam base.
- CPR feature allows for rapid deflation of mattress system.
- Removable, low-shear, anti microbial quilted top cover.
- Voltage range : AC 100-120V
- Frequency range : 50/60Hz
- 15 Month Non-Prorated Warranty
