# Multi-Ply™ Series 6500

## VARIABLE DENSITY SLEEP SYSTEM

### Multi-Ply 6500

#### Features and Benefits

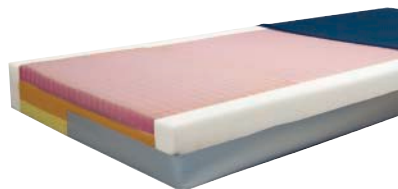

- *Multi-layered* pressure reducing mattress with top layer of die-cut high density foam in head and torso area, and special high resilient foam in heel area, provides a comfortable pressure reducing environment
- Middle layer of foot section has precision channel cut foam which provides additional pressure reduction in heel area
- Bottom layer of high density foam provides a firm foundation
- Mason's SSPT Rail System™ provides solid-edge support, allowing easy patient transfer to and from bed
- Top Cover is a 4-way stretch nylon which reduces heat buildup and provides a low shear non-friction surface that is anti-microbial and waterproof
- Border material & bottom panel of cover is 8.5 oz. grey Masongard™
- Designated head and foot sections
- Concealed zipper with Mason's *Barrier Stop™ Over-Flap* prevents liquids from contaminating mattress core
- As of July 1 2007, all Mason manufactured foam mattresses will meet Federal Fire Code CFR 16 part 1633

### Multi-Ply 6500-Lite

#### Features and Benefits

- *Multi-layered* pressure reducing mattress with top layer of die-cut high density foam in the head and torso section for excellent pressure reduction
- Heal Section is multi-layered, the top layer consist of independent cell technology for superior pressure reduction
- Bottom layer of high density foam provides a firm foundation
- Mason's SSPT Rail System™ provides solid-edge support, allowing easy patient transfer to and from bed
- Top Cover is a 4-way stretch nylon which reduces heat buildup and provides a low shear non-friction surface that is anti-microbial and waterproof
- Designated head and foot sections
- Concealed zipper with Mason's *Barrier Stop™ Over-Flap* prevents liquids from contaminating mattress core
- As of July 1 2007, all Mason manufactured foam mattresses will meet Federal Fire Code CFR 16 part 1633

### Multi-Ply 6500-Global

#### Features and Benefits

- *Multi-layered* pressure reducing mattress that is soft enough for your lighter patients and durable enough for your heavier patients (450 lbs)
- The top layer of Lura-Quilt™ foam is aerated which allows air to continuously pass through reducing heat build up
- The sloped heel section reduces pressure and increases blood circulation by redistributing the load from the heel to the less vulnerable calf
- The heel section is precision die-cut to permit air to circulate under the patients heel, which keeps the skin cool and dry
- The Lura-Tex™ bottom layer is channel cut to allow continuous gatching of the head and foot section without complications
- Top Cover is a 4way stretch nylon which reduces heat buildup, low shear anti-microbial and water proof
- Designated head and foot sections
- Concealed zipper with Mason's *Barrier Stop™ Over-Flap* prevents liquids from contaminating mattress core
- As of July 1 2007, all Mason manufactured foam mattresses will meet Federal Fire Code CFR 16 part 1633
