LOW AIR LOSS ALTERNATING PRESSURE SUPPORT SURFACE

The Masonair™ LS/AS8800 Alternating Pressure Mattress with Low Air Loss is one of the most advanced systems in the Masonair™ series. The micro-processor sensor technology provides continuous feedback to equalize pressure and maximize patient comfort. The mattress consists of (20) 8" high cell-on-cell designed air bladders. In case of a power failure the bottom 4" of the air cell will remain inflated offering sufficient weight support for the patient. The 10 adjustable comfort settings allows pressure to be customized by patient weight.

FEATURES AND BENEFITS FOR THE HOME CARE AND LONG TERM MARKET

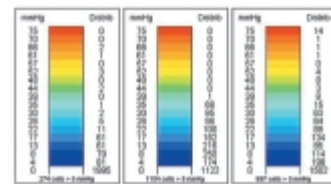

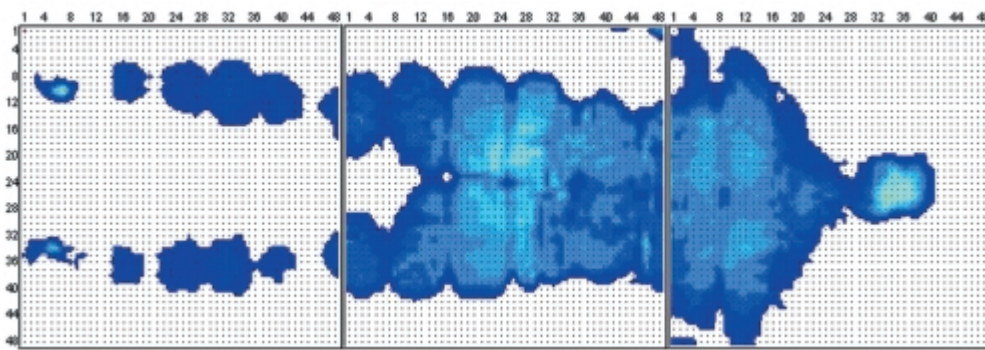

MATTRESS & COVER

- Bladder cell depth: 8", 20 nylon air bladders
- Removable, non-shear, anti-microbial cover
- 360° zipper for easy maintenance
- Slip-resistant mat and securing straps on the mattress base for added safety
- Pillow top feature keeps head and neck stable
- CPR feature allows for rapid deflation of mattress system
- Overall dimensions: 79" x 35" x 8"
- Weight: 22 lbs

POWERLOFT PRO™ LAL880 PUMP

- Low air loss, alternating pressure relief therapy (10, 15, 20, 25 minute cycles)
- 10 Adjustable comfort setting allows pressure to be customized by patients weight
- Static function can suspend the alternating mode (auto-recovery to alternating mode after 30 minutes)
- Micro-processor pressure sensing technology enables seat inflation when bed is raised
- Visible and audible low pressure alarms
- Auto firm mode for quick inflation
- Spring loaded tube to prevent any kinks for smoother airflow
- Lockout feature protects patient settings
- Weight Capacity : 350 lbs
- Voltage Range : 110-120/220-240 VAC
- Frequency Range : 50/60 Hz
- Dimension : 12" x 9" x 4"
- Weight : 9 Lbs.
