ShearCare™ 1100

Mason's premium pressure relieving mattress system is comprised of four (4) unique zones for maximum comfort, support and pressure relief. The top layer is Memory-III™ Visco Elastic, an all virgin self-molding and shock-absorbing foam which contours to the body offering reduced interface pressure readings. The unique Uni-heel™ section, is a one-piece die cut high resilient, low ILD foam offering maximum pressure relief in the vulnerable heel section. This combination creates a superior pressure relieving sleep system.
