## MIRAGE An incredible look!

Aqua Leader is once again asserting its leadership in design and innovation in the aboveground pool industry by proposing you this incredible pool, the Mirage. This pool is the fruit of many years of experience in the development of resin injection moulding.

Made from Synflex resin, the Mirage is synonymous with imagination and originality. Its flexible outside connectors made from Monprene thermoplastic are artistically blended with the structure and provide you with an audacious pool design. The unique shaped design of the uprights and the astonishing wall pattern of the Mirage, will make your landscape a success that you will be proud of.

### *Synflex resin:*

*New generation of reinforced and improved polypropylene synthetic resin with ultraviolet stabilizer and antistatic. Developed in Canada, it is specially designed to resist all environmental factors.*

### *Duratex 2000:*

*Plastic coating used in the automobile industry to prevent corrosion caused by shock or friction. Its thick and plastified texture insures a durable protection of all steel components.*

# TECHNICAL COMPONENTS

**Wall:** Real fortress, the wall is made from steel especially treated for durability. Treated with 14 coatings to resist all environmental factors and shocks. **Duratex 2000** plastic coating developed for the automobile industry will preserve the look of the wall; pool main component. Inner surface of the wall is treated with a special polyester resin coating resisting humidity and chemical infiltrations between the wall and the liner.

**Outside connectors:** Made of Monprene thermoplastic, the outside connectors are flexible and perfectly fit into the pool structure to strengthen its circular form. A unique type of innovation.

**Top seats:** Made of 100% synthetic Synflex resin. Their profiled circular form provides superior elegance and sophistication. Curved, 6 inch wide top seats offer a perfect look and an outstanding rigidity.

**Top tracks:** Top tracks are 1-1/4 inch wide, and are made with Synflex resin. They safely secure the vinyl liner in position and stabilize the wall while insuring its constant circular orientation.

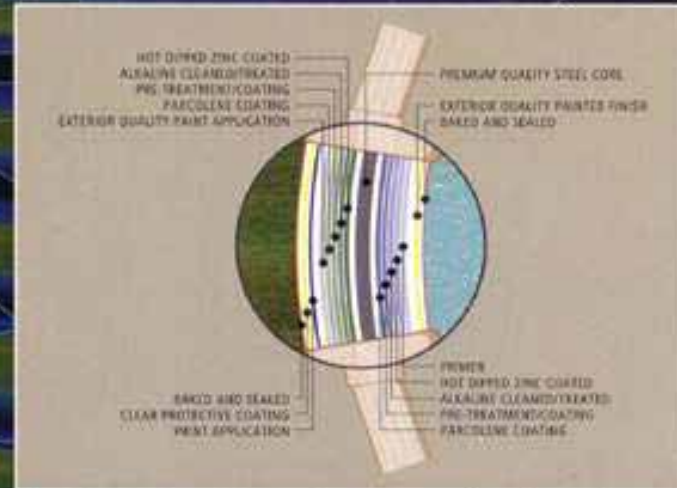

**Uprights:** Made of 100% synthetic Synflex resin, they are the pillars of the pool structure, they are reinforced with embossed patterns that insure stabilization of the seats. Uprights are 6 inch wide. They have a profiled and harmonious design for better rigidity and a perfect look.

**Bottom tracks:** Bottom tracks are 1-1/4 inch wide, and are made with Synflex resin. They now come with exterior shields giving them strength and style. The shields on the outside surface of the tracks prevent the wall from coming out when the ground heaves. The exterior shields lock the wall into place.

## WALL TREATMENT

Alkaline cleaned steel wall with hot dipped galvanized coating for years of dependable corrosion free use. A clear protective coating adds resistance against weathering. Wall is corrugated in order to increase its strength and resistance.

## Colour and design:

The Prelude wall matches the champagne structure.

Outside connectors in dark champagne.

Available sizes

Rounds: 12', 15', 18', 21', 24', 27', 30'

Ovals: Contact your local dealer for availability.

## CAPACITY UNITS

Feet	12'	15'	18'	21'	24'	27'	30'
Meters	3.40	4.57	5.49	6.40	7.32	8.23	8.50
U.S. Gal.	3799	5200	7650	10400	13500	17100	21591
Litres	14,378	19,800	29,000	39,500	51,100	64,800	81,723

Total wall height available: 52" (1.32M) Champagne only

\*Approximate capacity unit\*

**INJECTION MOULDING:** All the components of the structure for the Mirage pool are moulded by an injection process that enables us to reinforce every one of these components (ribbing process), to curve the top seat and also, to use a sturdy snap-on process that eliminates most of the hardware. All resin components are colour fast throughout.

In the 1980's Aqua Leader became the world's number one manufacturer and inventor of synthetic resin aboveground pools. Today Aqua Leader remains at the industry forefront, synonymous with the prestige of superior quality at the right price.

Aqua Leader is the only company in the world manufacturing all of its pool components. Whether it is the resin structure, the vinyl liner, the pool wall or the ladder, all these are manufactured and above all guaranteed by only one company, Aqua Leader.

No other above-ground company offers as many models, styles and options in resin pools as Aqua Leader. If you want the best in resin above-ground pools, there is no reason to compromise experience, engineering or beauty, go with Aqua Leader.

Enjoy your pool safely

- No Jumping
- No Diving
- Shallow Water
- Crippling Injury may result
