FOR IMMEDIATE RELEASE:

Jan. 4th, 2010

Team Bauerly competes at the ERX Regional on Jan. 2-3, 2010

The second stop of the ISOC MN Regional series was held at the Elk River Extreme Motor park (ERX) in Elk River, MN. Mother Nature blew in some sub-zero temps, yet the track crew was able to build a great and challenging track for racing.

Marcus Lang #315 ran the Saturday and Sunday Champ 120 classes. On Saturday he showed that the tuning and practice over the holiday break would pay off placing 2, 3, 4 in his respective heats and finishing the final on the podium with a 3rd place. Then, Sunday he did much the same, placing 3, 4, 2 in his heats and pulling away in the final for a big overall 1st place finish to top off his weekend well.

Chad #368 and Scott #15 had some tough heats all weekend in the Pro 30+ class. Throughout qualifying they battled for the lead with Chad posting a 1, 2, 2 finish in his three rounds and Scott going 4, 4, 3 in his. In the final they shot off the line up front with Chad taking the lead and Scott not far behind. At the finish, Chad came away with the teams second win of the day with a big 1st place overall and Scott came across in 4th.

In the Pro Stock class Team Bauerly was well represented with Kurt #318, Ross #821, and Tom #611. Kurt ran strong in the qualifying heats with a 4, 2, 2 overall to easily qualify for the final. Ross showed his consistency with 4, 4, 4 finishes in qualifying and Tom pull out a 5, 3, 5. In the final all 3 found themselves mid-pack battling some major snow dust, but they held fast and proved they could work through it and finished with Kurt in 5th overall, Ross in 6th, and Tom after a last corner mishap in 10th.

The final class of the weekend was Pro Open where Tom, Kurt, and Ross all ran. Kurt ran this class with his stock sled against the open modified machines and proved it can be done placing 3, 4, 3 in his qualifying rounds. Ross pulled in a 4, 5, 4 and Tom an impressive 2, 3, 2 for a third qualifier position on the start line for the finals. At the start Ross came out in the top five with the other 2 in tow. After another fierce battle with snow dust in the sub-zero air, Ross was able to cross the line in 6th, Tom in 8th and Kurt in 9th overall.

The team was able to push through the elements and come home with some positive results once again, and is eager to show what they have at the next events to come. For a schedule of events, visit www.bauerlyracing.com.
