Team Bauerly races in First Hill-X of the Season at QMP

Quadna Mountain Park played host to the new MSRA Hillcross circuit on Sunday, March 14th, 2010. Even though the week was plagued with rain and warm weather, the staff at QMP was able to harness plenty of snow for a very exciting and technical hill-x track. The jumps were big, the whoops were tough, but the team seemed to manage good lines all day and had their setups spot on, showing their dominance once again in their very first hill-x of the spring racing season.

Results:
