Testimonials

"Once you ask Eberhart Home Health to take on one of your patients, they assume responsibility for the whole package. They contact the patient immediately, set up delivery and talk the patients through their insurance questions. They make sure that the office has provided medical justification for the equipment so the patients are aware of services that may not be covered."

Steven P. Cullen, M.D.

"I just can't say enough good things about this company. They really do go above and beyond the call of duty to care for my needs. I have been a patient of theirs for 5 years now and in those five years they have become like family to me. Thank you so very much!!" Joan Hewitt
