

# Automotive Technician Training Class Registration Form

## Meter Usage Class

**Class Instructor:** Bill Mays, ASE Certified Master Technician in auto, diesel, engine and electrical. He is certified L1, L2 and alternative fuels, and has been teaching auto technicians since 1991.

### Who needs this class: Any tech working with automotive electrical systems.

Learn how to diagnose intermittent electrical problems, control systems and quick checks for starting and charging problems. Learn the difference between resistance and voltage drop testing, and when to use them. Build and use live circuits to test with **YOUR** meter! Lots of hands-on!

### Learn to get the most out of your meters and testers!

**Questions?** Contact Bill Ferguson at 804-305-6679 or email: [wfferguson@vaautomotive.org](mailto:wfferguson@vaautomotive.org)

For more information, visit [www.vaautomotive.org](http://www.vaautomotive.org) Click on training link
