

Virginia Automotive Association Auto Technician Training

“OBDII Advanced Diagnostics”

Who is this class for? Techs must be comfortable with scan tool basics.

Ready for scan tool Knowledge? This class covers OBDII systems only, including the new CAN protocol. Learn Mode \$6, and how it can help you diagnose the problem, then quickly verify and prove the repairs.

This class will be taught by Bill Mays, VAA Automotive Technician instructor. Class size is very limited - first come, first serve. Register today!

Questions: call Bill Ferguson at 804-305-6679 or wfferguson@vaaautomotive.org
