

BILL FULTON

Instructor Bill Fulton, the owner of Ohio Automotive Technology, is the author of Mitchell's Advanced Engine Performance Diagnostics and Advanced Engine Diagnostics manuals. He is also the author of several lab scope and drivability manuals such as Ford, Toyota, GM and Chrysler OBDI and OBDII systems in addition to his own 101 Lab Scope Testing Tips.

Bill is a certified Master Technician with over 30 years of training and R & D experience. He was rated in the top 3 nationally in Motor Service Magazine's Top Technical Trainer Award and has instructed for Mitchell, Precision Tune, OTC, Vetronix and Standard Ignition programs. You may also have seen Bill in many Lightning Bolt Training videos and read his articles in Under hood Service Magazine.
