

# Virginia Automotive Association Auto Technician Training

## "Diagnosing EVAP. Systems"

**Who is this class for?** Techs that work on EVAP Systems and general repairs.

EVAP code check engine lights got you baffled? Not sure how to find that tiny leak? Replaced a part and the light comes back on? If you have a smoke machine, we will show you how to make money with it. If you don't have one, you will want one after this class. Don't send these problems back to the dealer. Learn to fix it and be a hero for your customer.

This class will be taught by Bill Mays, VAA Automotive Technician instructor. Class size is very limited - first come, first serve. Register today!

Questions: call Bill Ferguson at 804-305-6679 or wfferguson@vaautomotive.org
