

Lap Play Recorder Instruction Sheet:

Here is a preliminary version until BRP updates the instruction sheet and owners manual:

- Use the Mode button to select the odometer in the lower display, then push and hold the SET or S button for 5 seconds to activate the lap record mode, REC will be displayed.
- Push the M or Mode button to start recording, "drive fast" or do what you want to record and push the S button to stop recording. You can do this 5 times or "5 laps" can be recorded.
- To review or Playback: push S button to switch from REC to play on screen, now push M button to play back recorded lap. All pre-recorded data such as speed / rpm / preselected mode will be displayed. Repeat for up to 5 recorded laps / drag races etc.
