

# June Tip of The Month

Get that pruner out!! Cut back your lilacs, forsythia, and peonies once they are done blooming. This is to encourage the blooms for next year .

In these rainy days, keep a close eye out for slugs. We recommend using Sevin. This product controls over 100 different insects.

Watch for diseases on roses and perennials. Spray Safer Garden Fungicide to control Rust, Powdery Mildew, and Black Spot.

June is a great time to plant. We are still bringing in Trees, Shrubs, and Perennials on a weekly basis for you to get the freshest plants.

A great way to add quick color to your gardens is by planting Barberry. We offer a wide variety of different shapes from mounds to pillars and colors from burgundy to bright green.
