

HEADLIGHT RESTORER

PROBLEM

- Debris becomes trapped in headlight pores, which dulls, clouds, and discolors headlight lenses.
- Less light passes through degraded headlight lenses, causing safety problems.
- Discolored headlight lenses decrease resale value of vehicle.
- Replacement can cost \$400-\$800 per headlight.

SOLUTION

- Wynn's Headlight Restorer saves the replacement cost of expensive headlight components.
- Unique abrasive effectively removes road dirt and debris.
- A thin coating is applied to seal and protect lenses from further deterioration.
