Exemplary Provider Accreditation

Somerset Med Services is accredited by the Exemplary Provider Accreditation Program. Our accredited status applies to home care services as a provider of equipment management and clinical respiratory services. Continuous quality improvement in the delivery of home care service is assured through ongoing evaluations by a compliance team experienced in all facets of home care delivery. Achieving accreditation demonstrates Somerset Med Services commitment to provide high quality service to its patients. We've made a significant investment in quality to assure "you" excellent service and satisfaction.

Since the time of ancient Greece, the legend of Asclepius has served as a metaphor for health-care delivery excellence. Pindar and Isyllus in the 4th century BC described him as the first great caregiver – mankind's universal benefactor whose compassion for human suffering brought out his brilliance and benevolence.
