HRG415C2PC

HRG415C2PC

- Great for today's smaller lawns and for trimming around pools
- 16" (41 cm) steel deck, push-type
- Powered by a quiet Honda 4-stroke engine
- Automatic decompressor for easy-pull starts
- Completely 3-in-1: bagging/mulching/rear-discharge capable
- 18" (46 cm) push and self-propelled models also available

Who said mowing the lawn has to be a chore?

SMART Drive™

SMART Drive™, a unique variable speed transmission. Developed with an ergonomic handlebar design, SMART Drive™ allows the user to easily control the mower speed when resting his/her hands on the handlebars.

The mower is truly self-propelled as the design does not require the operator to push the mower – it pulls itself forward.

HRR2166VKC

HRR2166VKC

If you think the price is attractive, wait until you see your lawn!

- Features adjustable SMART Drive™ control
- Features the exclusive Honda QuadraCut™ twin-blade mulching system
- 21" (53 cm) steel deck, variable speed transmission
- Powered by a quiet and efficient Honda 4-stroke engine
- Optional rear-mounted side-discharge chute
- Auto Choke System (ACS)

The Unique Honda Twin-Blade Systems.

Only Honda lawnmowers feature twin-blade mowing systems. Both the QuadraCut System® on the HRR models and the MicroCut System® on the HRX models provide four cutting surfaces for ultra-fine clippings for better mulching and increased bag capacity. Grass is cut into tiny pieces that quickly decompose and add nutrients to your lawn.
