## **Return Policy for Horse Blankets, Sheets and Accessories**

**All sales are final on horse blankets, sheets and accessories.  
We will not accept any of these items back for refund or exchange.**

---

## **Blanket Fitting Guidelines**

**Below are some "rules-of-thumb" for blanket fitting.**

**Please remember that our policy states that all sales are final on horse blankets, sheets and accessories.**

**If you are not absolutely certain of the exact size you need, we highly recommend physically measuring your horse and not estimating their size and/or the size of the blanket you need.**

- 1 Using a tape measure, start at center of chest and follow around the widest part of shoulder.
- 2 Then to the back and around the widest part of hindquarters, finally

ending up at the center of tail. Keep your line as horizontal as possible.

- 3 Your total measurement should equal the inches of a blanket size.
- 4 If you fall between even or odd sizes, we suggest that you round up to the next size.
