500lb. weight capacity

Heavy Duty Transfer Bench

- Reinforced aluminum anodized frame
- Heavy-duty blow molded seat
- Height adjust: 17" - 19"

Bath Safety Tips

Over 60% of falls occur at home with the majority in the bathroom.

Use an elevated toilet seat on the commode and a tub grab bar to get in and out of the bathtub.

A bath bench with back provides comfort and safety when bathing or showering. This should be used with a hand held shower.

Use a nonskid bath mat or adhesive strips in the bathtub and on the shower floor.

Never lock your bathroom door. You could prevent help from reaching you immediately.
