

Now What?

Through participation in Expanding Horizons you will experience, for a few hours, what thousands experience daily. It is our hope that through Expanding Horizons you will be moved to effect change in our community. Together, by changing the way we see our community, we can change our community.

Expanding Horizons

A Duluth Immersion Experience

Anyone Can Become Homeless

Expanding Horizons gives participants the opportunity to walk in someone else's shoes. Joining with local community agencies participants will learn about service and social justice while gaining a broader understanding of people who may be different economically, racially, ethnically, and/or culturally. Immersion into another way of life brings awareness to systemic problems and encourages participants to create change in their community.

Tell me and I will forget. Show me and I will not remember. Involve me and I will understand.

~ Native American Proverb

Expanding Horizons

A Duluth Immersion Experience

Expanding Horizons provides a glimpse into a life of poverty: from the moment of arrival participants step into the world of those living on the margins. Poverty is not just about money, but a way of life. It is about finding food, a place to stay, to work, the anxieties of dealing with the unexpected encountered daily, and how it never ends.
