### INGROUND POOLS

**Preferred Dates of Service:**

**No sooner than week of** \_\_\_\_\_

**No later than week of** \_\_\_\_\_

#### SERVICE A

#### WINTERIZE MY POOL

Includes lowering of water to proper level, removal of necessary accessories (diving boards will not be removed at winterization unless requested at time of contract and will not re-install boards in the spring), guarantee against frost damage to underground piping, filter and heater connections. This does not include any domestic fresh water lines from the house to the pool. An additional charge will be made for multiple pumps, filters or heater installations, pools with more than 40,000 gal. of water, and other than normal installations. It is not normally necessary to remove the pump and motor for the winter. (It is very easy for damage to occur to piping connections and wiring terminals if the motor is removed. We cannot be held responsible for any such damage.) If upon inspection, your winterization plugs are unsafe to assure proper winterization, we will replace them and bill you accordingly. **Pool will be winterized and/or covered in the condition found upon arrival of our servicemen. Vacuuming is not included, unless checked below. PLUGS, BLOCKS, CHEMICALS, OR NECESSARY EQUIPMENT WILL BE PROVIDED AT AN ADDITIONAL COST IF REQUIRED. A cold weather fee of \$50.00 will be added to any service performed after Nov. 15<sup>th</sup> (winter check excluded).**

### GENERAL CONDITIONS: ONE HALF OF THE TOTAL CONTRACT MUST ACCOMPANY SIGNED WORK ORDER.

We will make every effort to complete work as close to the contract date as possible. Work is scheduled on a first-come, first-served basis. We can assume no responsibility for delays beyond our control. You will be called at least one day prior to scheduled date. Any additional repairs or replacement parts necessary will be billed in addition to contracted work. Due to local ordinances and prevailing insurance codes, all electrical maintenance and repairs must be done by a licensed electrician. Arrangements for disconnecting and reconnecting the source of fuel to pool heater or power to the filter is the customer's responsibility. Remaining payment for all services and supplies is due upon completion of work. Acceptance of this work order indicates customer's agreement to our payment terms. A finance charge of 1-1/2% per month will be assessed on all outstanding balances over thirty days. We will exercise every reasonable precaution to prevent water damage but cannot be responsible for damage to property. Customer is to provide drainage facilities within 100 feet of the deep end of the pool.

**\*\* PLEASE RETURN YOUR WORK ORDER AS SOON AS POSSIBLE INCLUDING DEPOSIT. NO PREFERENCE OF DATE CAN BE GIVEN IF YOUR DEPOSIT HAS NOT BEEN RECEIVED BY 9/10/10\*\***

# Summer's Over - Time to Pack Away The Bathing Suits And Close the Pool for Winter

## -Seven Easy Steps to Closing Your Swimming Pool-

As the weather gets cooler, many pool owners will prepare to close their pools for the year. It's suggested that owners do more than simply drain and cover their pools. To ensure a smooth opening next year, invest a little time and money now to prevent a host of problems in the spring.

The following tips ensure fall pool closings and spring openings are a breeze:

- Conduct a final testing of your pool water. Visit a local BioGuard® Pool & Spa Care Center to receive a computerized water analysis and personalized prescription for your pool.
- Brush the walls of your pool and vacuum it thoroughly to remove any debris. Clean the skimmer basket and lint trap.
- Use a special filter cleaner to clean the filter prior to storage. Never store a dirty filter, it can cake and harden over the winter, leaving you with a tough clean-up job in the spring.
- Add appropriate winter chemicals, including winter algicide & winter shock.
- Follow your builder's recommendations for draining the pool.
- Add special pool winterizing anti-freeze to pipes and equipment. Never add automotive anti-freeze to your pool or chlorinator. It is toxic to people and could severely damage your equipment.
- Finally, cover your pool to protect it from winter winds, leaves, dirt and debris.
