

Oley Valley Feed, Inc.  
 Fish Day  
 August 14th, 2010

	<u>Approximate Size</u>	<u>Each</u>	<u>Quantity</u>	<u>Total</u>	
<b>Largemouth Bass</b>	1-2 in	\$1.50	_____	_____	Predator fish, can grow by themselves, but better if stocked with forage fish. Stock at 100 per acre pond.
	3-5 in	\$5.00	_____	_____	
<b>Channel Catfish</b>	1-2 in	\$0.75	_____	_____	Bottom feeders - help to keep pond clean & healthy. Annual stocking of fingerlings is recommended. Catfish can be added at any time as they do not compete for food.
	3-4 in	\$1.00	_____	_____	
	5-7 in	\$2.00	_____	_____	
<b>Bluegill Sunfish &amp; Yellow Perch</b>	1-2 in	\$0.60	_____	_____	Forage Fish - very reproductive June thru August. Stock at 800 to 1000 per acre pond.
	3-4 in	\$1.00	_____	_____	
	5 in	\$2.00	_____	_____	
<b>Golden Shiner Minnows</b>		\$20.00/lb	_____	_____	Forage Fish - reproduces heavily. Good to stock with Bass. Recommend 10 lbs per acre pond.
<b>Fathead Minnows</b>		\$20.00/ lb	_____	_____	Forage Fish - good pond starter. Recommend 10 lb per acre pond.
<b>Tadpoles</b>		\$1.00	_____	_____	
<b>Packing in Oxygen</b>					
	All orders will be packaged in bags with oxygen.	\$1.50/ bag	_____	_____	To be determined at time of delivery.
