- Our Beat the Heat service program has been designed to allow you the customer to make the decision on which services best suit your current needs.
- You will receive a full report on the condition of your unit and any items needing attention.
- We will provide a written estimate at no additional charge covering any and all repairs that are needed.
- You will receive an additional 10% off any parts used for additional repairs and a 90 day guarantee on repairs.
- Individually priced all three components would cost \$265.00, during this promotion you can save an additional 10% when all three components are purchased as a package.
- A 25% discount is allotted for 90 days if the unit needs repairs for any items which passed our inspection.
- Pick up and delivery available!

Please note that this offer is only good thru 6/1/10 and may not be combined with any other promotional offer.

Note: These tests are designed to confirm proper operation of the Refrigeration System and Compressor Capacity to ensure peak unit performance
