Visual Check of:

Exhaust System, Gauges,  
Hoses, Wiring, Battery Terminals, Doors, Frame

*Note: These tests are designed to confirm proper operation of the Refrigeration System and Compressor Capacity to ensure peak unit performance*

The following program has been designed to allow you the customer to make the decision on which of the above services will best suit your current needs. Individually priced all three components would cost \$265.00. During this promotion you can save an additional 10% when all three components are purchased as a package. You will receive a full report on the condition of your unit and any items needing attention. We will provide a written estimate at no additional charge covering any and all repairs that are needed. You will also receive an additional 10% off any parts used for repairs and a 90 day guarantee on repairs. A 25% discount is allotted for 90 days if the unit needs repairs for any items which passed our inspection.

**\*\*\*Please note that this offer is only good thru 6/1/10 and may not be combined with any other promotional offer.\*\*\***
