To Whom It May Concern,

Fiberclass Contracting has been a subcontractor for O'Brien Construction over the past few years. During that time span they have successfully completed many substantial insulation, windows, siding, and gutter subcontracts. Their scope of work includes the completion of many new and renovated apartment and multi-unit projects. In just the last three years Fiberclass has completed over 500 units for our firm.

It has been a pleasure to work with Mike Abernathy and the Fiberclass crew. They are one of the most professional organizations we work with. The quality on each project is always beyond our expectations. Fiberclass is one of those rare companies that we never have to call twice when needed on the project. Fiberclass is truly one of the top subcontractors we have worked with during our 47 years in business.

I wholeheartedly recommend Fiberclass Contracting to anyone in need of insulation, windows, siding, or gutter work. We consider them part of the O'Brien Construction Team and will continue to use them on our future projects. Please feel free to contact me if you require any additional information.

Very truly yours,

O'BRIEN CONSTRUCTION CO., INC.
