

SuperSpare™ for Trailers allows under-trailer storage of super single or regular tires, with or without side skirts

Traditional bucket tire mounts **do not** allow tire access with side skirts

## SuperSpare™ for Trailers specifications

Compatibility	<ul style="list-style-type: none"> <li>Available for trailers with standard I-beam construction</li> </ul>
Operations / Weight	<ul style="list-style-type: none"> <li>Self contained lift mechanism</li> <li>30 lbs.</li> </ul>
Installation:	<ul style="list-style-type: none"> <li>1 person, 20 minutes</li> <li>Installed at any trailer maintenance facility</li> </ul>

## SuperSpare™ benefits

- Facilitates carrying a spare wide-base tire while using side skirts
- Provides secure storage of spare super single tires on trailers (also compatible with standard wheels/tires)
- Prevents injury from lifting spare tires into typical mounting racks

Advanced Transit Dynamics (ATDynamics) designs and delivers best-in-class fuel-efficiency technology for the freight transportation industry. ATDynamics works with trucking fleets throughout North America to save fuel costs and reduce vehicle emissions.
