6" DUAL COIL OVER CONVERSION

SUSPENSION SYSTEM WITH REAR LEAF SPRINGS

Place your orders now for Pro Comp's Double XX Coilover Conversion 6" lift systems. **4 massive 2.75" Remote Reservoir Coilover Shocks** multiply damping control, provide unmatched heat dissipation and fade resistance and serve up maximum ride comfort. These high end coil over shocks mount to rigid custom shock towers with hoops that allow easy mounting of the 4 remote reservoirs. Stout tubular and boxed construction radius arms locate the axle and provide proper caster specifications. Rugged reinforced extensions keep the bump stops in the right location for optimum suspension travel. **MX6 adjustable**

reservoir rear shocks combined with **replacement rear leaf packs** enhance load control and **dual steering stabilizers** eliminate steering wheel shimmy. Without a doubt, Pro Comps Super Duty Double XX coil over conversion offers the most complete performance suspension package available.

Installations requires removal of factory coil towers - time to install 6-8 hours.

Maximum recommended tire size 37" x 12.50.

Recommended rim width and backspacing 8"-9" wide with 4.5" -5.5" backspacing.

22 kits in stock available to ship now.
