

PARNELLI JONES Dirt Grip

Aggressive On/Off Road Performance and Styling

PJ initial tread design provides a smooth ride and lower noise

Distinctive sidewall offers additional durability and extra off road traction

Tires are x-rayed and checked for radial runout

Two steel belts and two polyester radial plies in tread area

Designed with the look that the off-road enthusiast wants, Dirt Grip's distinctive tread and beefy lug design provide excellent traction in all conditions while maintaining a smooth quiet ride.
