

Pool Closing Information

Winterizing or “closing” your pool can be the most important function that is done throughout the season. You may incur numerous problems in the spring if the pool is closed incorrectly which can be extremely expensive to rectify. For this reason, many pool owners have an experienced professional pool company close their pool.

We highly recommend that you keep your pump running and your pool clean until we close your pool. Add Natural Chemistry Spring and Fall 1 week prior to your pool closing date. You should also bring us a water sample a few days prior to your closing date so we can advise you on how to balance the water for the winter season. This can help preserve the life of your pool surface and save on chemical costs in the spring. We do not recommend chemicals being added to your pool at closing. Most chemicals need to circulate at least 12 hours prior to closing the pool.

Above Ground Pool Closing: Same pricing as 2007 & 2008!

Because of the numerous sizes and conditions, all above ground pools are charged on a time and materials basis. The average closing price ranges from \$185.00-\$250.00. There is a \$175.00 minimum charge. A trip charge is assessed when applicable.

A \$100.00 deposit is required to reserve a closing date.

Above ground pool closing consists of **skimming and vacuuming** your pool as best possible, lowering the water to the proper level, remove all baskets, ladders, and accessories, winterizing the equipment, and installing the winter cover. Air pillows under the cover are not necessary. Many of the large interior steps are left in the pool per the manufacturer’s instructions. **Chemical balance should be done prior to the pool closing by the homeowner.**

In-Ground Pool Closing: Same pricing as 2007 & 2008!

Pool Size Under 16’ x 32’ - \$345.00

Pool Size 16’ X 32’ and Over - \$395.00

We will **clean, skim and vacuum the pool** as best possible, lower the water to the proper level, and remove all ladders, handrails, cleaners, lights if necessary, and accessories. We then blow out all of the water from the pool plumbing lines, drain and winterize all of your pool equipment including the pump, filter, and heater. Then add antifreeze where necessary. Our crew then installs your winter cover.

There is a \$100.00 deposit required to reserve a closing date. A trip charge is assessed when applicable. **Chemical balance should be done prior to the pool closing by the homeowner.**

In-ground pools may deduct \$100.00 if the homeowner cleans the pool and lowers the water level.

In-ground pools with auto-covers may deduct \$50.00

Extra Charges:

| | | | |
|------------------------------------|---------|----------------------------------|------------|
| Solid covers with water tubes - | \$75.00 | Charge to clean very dirty pools | \$25-\$50 |
| Spa in conjunction with the pool - | \$90.00 | Chemically clean filter elements | \$10-\$35 |
| Pools using two covers - | \$35.00 | Winterizing plugs | \$1-\$3.00 |

Anti-freeze is included in the in-ground pool closing price.
