► Testimonials

"My mom is 81 years old and has not been able to get into and out of the bath tub due to her mobility difficulties. She has had to use a shower chair and shower for the past 2 years. We recently moved her in with our family because of medical issues and being a naturopathic physician, I am a firm believer of hydrotherapy. There are many benefits of taking a warm bath, especially with the use of aromatherapy and mineral salts. This is one of the most important things that our elderly truly need for quality health. I was determined to find a way to help my mom achieve this. When I found your web site and saw the Sterling 303 bath lift, I was immediately excited. Not only is this a great lift but very affordable!

Set up is very easy and the directions are written very well and easy to follow. By 6 pm that night, I had my mom soaking in a hot bath! What a joy for me and you should have seen the expression on her face; to finally be able to get into and out of the bath tub, with no effort at all! The Sterling bath lift is a great device and safe, too! I am so thankful that it is available and so reasonably priced! This is truly a must for anyone caring for an elderly person in their home! This helps us keep our mom with us, where she belongs! Thank you again for EVERYTHING!!!!!"

Bonnie Chudyk, N.D.

"Thank you so much the lift, it is all I had wished for. I have not been able to get down into the bath tub for years. I have post polio syndrome. What a wonderful invention."

"I just wanted to say thanks for this product and for selling it at such a good price. After receipt I installed it for my mother who hasn't been able to take a real bath for over 7 years now - only showers via her shower seat. It made me so happy to do this and I wanted you to know that you helped me do that. "

Thanks again,
Jodee B.

"Mom has always been a bath girl but being 93, she didn't have the strength to get out. I didn't have the strength to help her so time for shower. She hated it. She cried! She called it a horror chamber! I called the local medical store and all they had was a huge hydrolic monstosity with belts and such. Looked like something to be used in a hospital. Decided to search and after several days of shopping, decided you your product. Am sure glad I did. Mom hasn't had a bath for many years. Had a party right after installing and everyone was so impressed and some said they would like to have one."
