Warnert Racing's Adam McGill Podiums at Big Buck GNCC

St. Cloud, MN – Can-Am Warnert Racing's Adam McGill came on strong to take his second pro podium of the season at round four of the 2010 GNCC series, while teammate Cliff Beasley secured his fourth straight win of the year in the U2 class.

While most GNCC racers prefer a little moisture when racing, the conditions at Big Buck in Union, SC were dry and dusty, but that didn't stop Adam McGill from making a hard charge to the podium. McGill got off to a mid-pack start, but quickly began picking off the competition and by the end of lap two; McGill was in the number four spot and gaining ground on teammate Chris Bithell, who was in third. McGill took over third in the final lap and was catching up to the leaders, but would run out of time before he would be able to close the gap enough to make a move, which put him in third overall with a time of 2:09:04. "I hit a tree in the third lap and that slowed me down a little bit, but overall I had a really good race and I am happy to be on the podium again," stated McGill, who is holding on to third in the pro points race.

#3 Adam McGill

Cliff Beasley continued his winning streak in the morning's U2 class. Beasley was second in the holeshot but took the lead shortly into the first lap. Once he was out front, Beasley never looked back. Even a close encounter with a tree in the fourth lap couldn't slow him down as he went on to take his class win with a time of 2:18:41. "Last year there wasn't as much competition in the 4x4 Lites class as there is in the U2 class this year, and even though I won a lot of races last season, this year it seems to mean a little more to be able to come out here with this much competition and still win for the Can-Am Warnert team," said Beasley.

#209 Cliff Beasley

4x4 Limited class racer, Michael Swift, kept a fast and steady pace as he charged his way to a second place finish. Swift's determination and speed have him in the points lead for the 4x4 Limited class as he inches his way closer to his fourth straight GNCC championship.

The next round of the 2010 GNCC series will be held at Hurricane Mills, TN on April 24th where the famous Loretta Lynn's Ranch will play host as the Warnert team prepares to see its racers dominate their classes. Warnert Racing is supported by: Can-Am, Rotax, XPS, NSK Bearings, ITP Tires, Fox Racing Shox, SSI Decals, Douglas Wheels, Motoworks, Fasst Handlebars, 50 Below, Rath Racing, Shock Doctor, Moto Concepts, Hinson, Mechanix Wear, CV4, Spider Grips, Walsh, Twin Air, Precision, DP Brakes, Outerwears, Cycra, Forma Boots, Engine Ice, Tire Balls, IMS Products, Quadtech, Motion-Pro, IPL, Yuasa Batteries, NGK, 661, Arai Helmets, and Scott Goggles.
