For Immediate Release

New Product Announcement
07-08 Jeep JK 4-Door/2-Door
4" Stage II X Flex Suspension Systems

Vehicle shown with 35" x 12.50" Tires.

The new Pro Comp 4" Stage II X Flex System for the 07-08 Jeep JK 4-Door/ 2-Door delivers top-level performance! Replacement lower control arms are manufactured from CNC formed, laser cut, and 3/16" thick A36 steel plate. These arms feature 1/8" thick gusset plates for unyielding durability and come equipped with rebuildable high angle spherical ball end and long lasting polyurethane bushings. Adjustable length front upper arms are included to optimize alignment specifications. Other features include; a heavy-duty adjustable front track bar constructed from 4130N chromoly tubing and an adjustable rear track bar bracket for proper axle alignment. Front sway bar disconnects, rear sway bar links, extended front bump stops, billet rear bump stop spacers, off-set brake line relocation brackets, vehicle specific front and rear coil springs and adjustable MX6 Mono-tube, gas pressurized shocks finish the package and provide an outstanding ride. All necessary components are combined in a complete bolt-on package that will provide superior flexibility and off road handling and allow for the use of 35" tires.
