CSR-2900	CST PERFORMANCE SHOCK (REAR STOCK REPLACEMENT)	99.95
CSR- 2955	CST PERFORMANCE SHOCK (REAR SHOCK FOR 5-7" LIFT)	99.95

*1 Wheels must not have more than 6" Backspace - 18" wheels or 6.5" Backspace - 20" wheels for use w/ aftermarket wheel or oversized tire applications, wheels should be checked for clearance and fitment before tire installation.

*2 Rear shocks only are required and are sold separately. See shock part numbers under Individual Kit items above.

*3 Brake lines must be changed by a professional. Allowing air into the brake system without proper bleeding could result in brake failure.

*4 Upper control arms (part # CSS-T2-2) are not required, but are recommended when adjusted to 7 inches or more.

Recommended tire size for 3.5" lift: 33" tall tires on 18 x 9 wheels with up to 6" backspace

5.5" lift: 34" tires or comparable height on 18 x 9 wheels with up to 6" backspace.
Larger diameter tire may fit, but will require trimming.

6-7" lift: 35" tires on 18 x 9 wheels with up to 6" backspace
35" tires on 20 x 9 wheels with up to 6.5" backspace
Larger diameter tires fit, but will require trimming and pre-fitment is recommended.
