

**Harbor City Kennel's
Vaccination Requirements
Dogs**

Rabies

First Rabies vaccine-good for one year. Rabies booster every two or three year.

Distemper Combination Vaccination

Boosters given every 1-3 years depending on the vaccine your veterinarian uses.

Bordetella Vaccine (Kennel Cough)

Needs to be given every 6 months to dogs who board regularly. This vaccination prevents kennel cough, and should be given 2 weeks before the dog is expected to board at Harbor City Kennels.

Fecal/Intestinal Parasite Exam

Fecal checks are required every 6 months for dogs under 2 years of age. After 2 years of age we require annual fecal exams. Any dog that has not had a fecal exam done will be subject to a \$25.00 special handling fee until the exam has been completed.

Please bring all updated vaccination papers with you when you drop your dog off to board. You can also have any local vet fax the vaccination records directly to Harbor City Kennels. Fax # (218) 525-5145

**Thank you for your cooperation,
Harbor City Kennel Staff**
